

# **INDICATORS OF DAILY MONITORING OF BLOOD PRESSURE IN PATIENTS WITH BRONCHIAL ASTHMA AND ARTERIAL HYPERTENSION**

**V. G. Lizogub, N. V. Altunina**

## ***Summery***

The article presents the results of daily blood pressure monitoring (DBPM) in patients with bronchial asthma (BA), combined with arterial hypertension (AH). There are more significant changes in indicators of DBPM in this category of patients compared with patients with isolated AH, reflecting the negative impact of BA on the course AH.
