

INFLUENCE OF PHARMTHERAPY OF ALLERGIC RHINITIS ON ASTHMA CONTROL

*V.I. Ignatieva, G.L. Gumenuk, N.I. Yuhno,
A.V. Potochniak, L.A. Savelieva*

Summary. *Clinical review of a non-controlled asthma, caused by concomitant disease — longlasting and untreated allergic rhinitis (AR). Local adequate antiinflammatory therapy of AR helped correct nasal breathing and reach control over asthma symptoms.*

Key words: *allergic rhinitis, pharmtherapy, asthma control.*
