

P.G. YANOVSKY: DOCTOR, SCIENTIST, PERSONALITY

I.P. Tarchenko, D.V. Dobrianskyi, G.L. Gumeniuk, P.F. Dudka, R.I. Ilnytskyi, N.M. Kuzmenko

Abstract

The path of academician Pheophil Gavrilovich Yanovsky to world recognition and outstanding scientific achievements was thorny, but great performance, natural talent, decency, respect and humanity created a peculiar image in the people's memory – «a God-given doctor».

July 8, 2018 marked the 90th anniversary of the death of P.G. Yanovsky, one of the most famous doctors of Ukraine, the founder of the Kiev Therapeutic School. We decided to remember first of all the little-known pages and legends of his life in this article.

Due to the change of generations and the radical restructuring of educational technologies, it is important to recall this outstanding personality – a prominent scientist, teacher, and clinician precisely as an example for subsequent generations of medical students.

Key words: P.G. Yanovsky, tuberculosis, pulmonology, prominent scientist.
