

Tactical Combat Casualty Care: Guidelines for Medical Personnel (TCCC-MP, 2021)

ABSTRACT. The TCCC (Tactical Combat Casualty Care) standards are developed by the TCCC Committee, which is a part of the Joint Trauma System of the US Ministry of Defense. The latest version of the guidelines for medical personnel was translated into Ukrainian by the specialists of the Association of Anesthesiologists of Ukraine (<https://aaukr.org/rekomendatsiyi-z-taktychnoyi-dopomogy-poranenym-v-umovah-bojovyh-dij-dlya-medychnogo-personalu>). The latest version includes updates on the devices for stopping junctional hemorrhages and restoring airway patency, recommendations for analgesia and for penetrating abdominal injuries with intestine evisceration.

KEY WORDS: TCCC recommendations, tactical care.
