

# INFUSION THERAPY IN CRITICAL CONDITIONS IN SURGERY

*T.V. Kozlova, V.T. Mushenko, V.B. Sivovolov*

**Resume.** There are seemed some variants of the infusion therapy, used scales of the patient's status. These scales, proposed by MD G.A. Shiphrin, are reflected changes of human homeostasis, which are universal in different pathology. The basis component, need correction with infusion solution, seemed systemic oxygen transport.

**Key words:** *infusion therapy, statusmetria, oxygen.*
