

ADAPTATIONAL REACTIONS DYNAMIC IN COMPLEX TREATMENT WITH REOSORBILACT IN PATIENTS WITH DRUG ALLERGY

O. O. Sorokopud, O. M. Radchenko

Summary. The types of adaptational reactions in 40 patients with drug allergy were investigated during admitting to the hospital and after 10 days of their inpatient treatment. Including of Reosorbilact in complex treatment of patients with drug allergy did not lead to any changes in adaptational reactions dynamic.

Keywords: *drug allergy, Reosorbilact, adaptation reactions, stress, orientation.*
