

# EFFICACY OF IMMUNOMODULATOR "FITOR" IN COMPLEX TREATMENT OF PATIENTS WITH MILD AND MODERATE PERSISTENT ASTHMA

*T. P. Ditkovska*

## *Summary*

The article is dedicated to the evaluation of efficacy of basis therapy (beclametazone dipropionate, salmeterol and, if needed, salbutamol) in combination with oral herbal immunomodulator "Fitor" in patients with mild and moderate persistent asthma. It was established that administration of "Fitor" led to significant increase of functional activity of neutrophilic granulocytes.
