

FLAVAMED: RATIONAL MUCOLYTIC THERAPY OF RESPIRATORY DISEASES IN CHILDREN

V. P. Kostromina, O. O. Rechkina

Summary

The results of treatment of 113 children with acute and chronic respiratory diseases using medicine Flavamed (Ambroxol by Berlin-Chemi) confirmed its good tolerability and high therapeutic efficacy. The medicine can be recommended in children of different age both for in- and out-patient treatment of acute respiratory infections, tracheitis and pneumonia.
