

# PROBLEMS OF THE CARE PROVISION FOR PATIENTS WITH DRUG-RESISTANT TUBERCULOSIS

*I. M. Gorbatyuk, S. V. Zaykov,  
S. M. Zhvigun, N. M. Gonchar*

## *Summary*

The problems of the care provision for patients with drug-resistant tuberculosis were discussed. It was suggested to work out typical regulations for allocation of separate department for patients with drug-resistant tuberculosis. Sanitation and epidemic regulations regarding the equipment and setting of such a department and its staff list were proposed. The conditions for preserving of social security of medical personnel were determined.
